An Empirical Study of the NTFS Cluster Allocation Behavior Over Time

By: Martin Karresand (Norwegian University of Science and Technology (NTNU); Swedish Defence Research Agency (FOI)), Stefan Axelsson (NTNU and Norwegian Defence Cyber Academy (NDCA)), and Geir Olav Dyrkolbotn (Halmstad University)

From the proceedings of

The Digital Forensic Research Conference

DFRWS 2020 USA

Virtual -- July 20-24

DFRWS is dedicated to the sharing of knowledge and ideas about digital forensics research. Ever since it organized the first open workshop devoted to digital forensics in 2001, DFRWS continues to bring academics and practitioners together in an informal environment.

As a non-profit, volunteer organization, DFRWS sponsors technical working groups, annual conferences and challenges to help drive the direction of research and development.
